

30 June 1959

MEMORANDUM FOR THE RECORD

Subject: DE/Nazification Files

1. On 24 June 1959, [] and I met with [] and [] to discuss the extent to which this Agency is interested in taking over the 17,000 cu. ft. of these records located in Kansas City.

2. It was the consensus of the group that approximately 12% of the selected files dealing with scientists and technicians would be the most valuable records.

3. The Biographic Register has found that the sample files that they have borrowed from the Department of Army have proved to be valuable. Biographic Register will see if they can get sufficient funds to screen the 17,000 cu. ft. of files in Kansas City so that they can select the most valuable records.

4. It was agreed that [] and I would contact Mr. Allen of the Department of the Army and see if they can postpone their action on the disposition of these records to beyond the calendar year 1960.

P. S. Telephone call to Mr. Allen, 29 June, indicates that they would consider postponing action on the disposition of this file until FY 1962.
